March 1 Hog Inventory 3% Higher, February Pigs Gain by

54.6 Million Head Estimated, Breeders Advanced 6%, Market Hogs 2% Higher, Farrowing Intentions Indicate Gains

Washington, Mar. 21 (USDA) — In the 10 states, the quarterly hog survey is estimated at 54.6 million head, 3% above last March, according to the Crop Reporting Board. This is 8% below March 1981 and is first increase in the March inventory level since 1980.

Breeding inventory, at 5.31 million head, was 6% more than a year ago but 9% less than March 1981. This is the first increase in the March breeding herd since 1979.

Market hog inventory, at 35.7 million head, was 2% above last year but 9% below two years ago.

The December 1982 — February 1983 pig crop was 1.5 million head, 10% more than last year but 2% below two years ago. There were 2.08 million sows farrowing during the past quarter. An increase of 6% from a year ago but 5% below the same period two years ago.

Sows farrowing averaged a record high 7.34 pig per litter compared with 7.11 last year and 7.24 two years ago. The litter rate was the highest on record for a December — February quarter and second highest overall for the 10 quarterly states. The highest litter rate on record is 7.64 in March — May 1981.

Hog producers in the 10 quarterly states intend to farrow 2.5 million sows during March — May of this year. This is 8% more than during the comparable period in 1982 but 9% less than two years ago. Farrowing intentions for June — August are 2.35 million head, 7% above the same period last year but 5% less than two years ago.

New Dairy Program Endorsed by FB

Washington — Agriculture Secretary John Block's call for new dairy legislation "presents the industry with an opportunity to maintain the integrity of the dairy program while getting the industry's house in order," American Farm Bureau Federation executive vice president Fred Schatz said.

The secretary urged new legislation on April 16, the first of two 50-cent assessments on dairy production mandated by current law. If by Aug. 1 no consensus on a new plan emerges from the industry, Block said he will have to implement the second assessment.

"We realize that Secretary Block does (CONT. ON PAGE 18B)

Farmers Enrolled 187 Million Acres 81.2% for PIK

Washington, March 22 (USDA) — Farmers have signed up in the 1983 average reduction and PIK program 187 million acres of food grains, rice, wheat, and upland cotton. The acreage is 81.2 percent of the 230 million acres of total base acreage.

The sign-up was necessary to determine producer eligibility for program benefits such as Community Credit Corporation Loans and Purchases, PL Target Price Protection and — for wheat (CONT. ON PAGE 18B)

Fed Cattle Firm, Higher, Hogs Gain At Markets Monday

Market supplies of slaughter cattle and hogs were somewhat smaller Monday largely due to the winter weather. Both carcass beef and the pork cuts met steady or higher prices and some points reported the limited supplies were a factor. Much of the trading and generally the lower end of the quotations on the choice and prime steers and heifers represented muddy cattle. Fed cattle were firm to unevenly higher at most markets. Slaughter cows showed some strength at a few places and bulls were generally scarce and steady. Hogs posted prices from 25c to as much as \$1 to \$1.50 higher. Monday's estimated cattle kill at 119,000 was 7,000 above a year ago and 6,000 over last year. Monday's estimated hog kill at 314,000 was 7,000 ahead of a week ago and 7,000 under last year this date.

Price trends, quotations on choice and prime steers and heifers and the good and choice Holstein steers and on U.S. 1-3 hogs scaling from 200 to 270 or 280 pounds included:

OMAHA fed cattle 50c to \$1 higher. Steers \$64.50 to \$66 and \$63 to \$64.50. Choice Holsteins at \$58. Heifers \$62.50 to \$64 and \$61 to \$62.50. Hogs steady to 50c higher at \$51 to \$52.50. SIOUX CITY fed cattle steady to 50c higher. Steers \$62.50 to \$64 and \$63 to \$64.50. Choice Holsteins \$54.50 to \$55.50. Heifers \$60.50 to \$63 and \$60.50 to \$61.50. Hogs \$1 higher at \$51 to \$52.50.

ST. PAUL fed cattle firm, spots 50c higher. Steers \$62 to \$63.50 and \$60.50 to \$62. Holsteins \$55.50 to \$58.50. (CONT. ON PAGE 11A)

Carlot Beef Opens Steady, \$1 Higher

Des Moines, Mar. 21 (F-S) — Central U.S. carlot beef includes the major production areas in the Midwest and Texas-Oklahoma Panhandle as of 4:00 p.m. Compared to Friday's 4:00 report: Steer and heifer carcasses mostly steady except light weight heifers and yield grade 4's \$1.00 higher. Demand light, trading slow on light to moderate offerings. The gross boxed beef carcass cut-out value declined \$.08 to an estimated \$102.69 per cwt. Sales reported on 28 loads of steer and heifer carcasses.

Steer Carcasses — 14 loads including 9 to processors and 5 to packers. FOB (CONT. ON PAGE 11A)

Pesticide Use on Set-Aside Acreage

The Texas Agricultural Aviation Assn. reports the following information from the Environmental Protection Agency in their recent newsletter: A Payment-in-Kind (PIK) program for the 1983 crops of wheat, corn, grain, sorghum, cotton and rice was recently announced by the USDA. On February 18, 1983, Douglas D. Campt, Director of the Registration Division, EPA Office of Pesticide Programs described the current thinking of the EPA regarding the PIK program. He told the Regulatory Committee that the set-aside land should be regarded as crop land because the land will be used again for crops. Thus, under no circumstances should it be considered noncropland. Campt said that the Agency will allow the following types of pesticide application to set-aside agricultural acreage: If the land contains previous crop residue or stubble on the soil surface (CONT. Commodities Comment

Most future markets, as well as the stock market continue to move around in different directions trying to establish a trend. Grains and cattle now appear quite bullish, the pork complex bearish, and metals and financials neutral. All of these markets are very nervous and they appear to be at a very important crossroads. It is my guess that the next major fundamental force at work will be the direction of the stock market and any new action by the Federal Reserve.

The grain markets literally exploded this week with public enthusiasm over the Payment In-Kind (PIK). There continues to be talk of drastically reducing corn acreage and a feeling that the crop corn will rally to \$3.30 a bushel year-end. At this writing July corn closed at \$3.03. The grains have ignored falling metal prices and a faltering stock market. If any weather problems develop this summer don't be short! Buy the sharp breaks on new crop prices.

still feel that by fall corn prices will be a lot lower than they are now, assuming no weather problems develop.

The Mercantile Exchange has a real mixed bag on its hands. The pork complex appears to have no bottom to it at all. And cattle seems as if it will be worth their weight in gold, (or should I say...corn?). The March Pig Crop Report is due out in a few days, and it will be one of the most important we have seen in years. Personally, I'm bullish on summer hogs and bellies. The cattle market has been so bullish I'm sprouting horns. By June 1984 I feel that cattle will be at \$300 to \$1000, and I've heard it here first!

"Get 'em on ya, then going higher!"

The metal markets certainly seem to chop around. They are searching for news to give them a push one way or another. I still feel that gold and silver have a more liquidating to do on the downside. I wouldn't be surprised to see gold drop to the \$350 level in the near-term. If you want to be a buyer in any of the metals, I suggest the platinum and/or palladium first. They have the best long-term fundamentals going for them and not much of the liquidating following. I like June of palladium under \$1000, and June of platinum under \$900. I expect June and April platinum under \$390.

Which Way From Here?

(one minor miracle) and now seen have an even chance of turning 'th' penny around. However, one should be surprised too much. When he Ford he took th' Falcon (which musta figured was more of a sliver than it was and put a snappy new lady on it) and th' hottest little car gain' at th' time he named it Maverick.

"Th' other mornin' we heard riddle-montater Alex Burton bellie achin' th' fact that Lewisville High School payin' th' students to inform on users & peddlers and Alex seeme think this was unthinkable that older should expect th' kids to tattle on peers. However, it does appear to be the case. I think anybody can find a place to be, since anybody can be paid to do it, since we have 100 for helpin' clean up their school we have drives all over th' place offer reward money for information on criminals and that is workin' too. C happens to be one of those cancers in Grate Sassy we can throw money and git real results. Offer enough me and us one informer in Fort Worth, "I'd turn in my own grandmother!"

criticize something that's working?" It is just possible there are a lot of decent kids in schools who absorb dope as much as you and me.

It seems that the world's financial institutions are in a peak of trouble with billions made to underdeveloped countries, communist countries and just about any nation that refused to pay for oil. Prices sagging and the whole world's recession or worse, find it a country worthy of more credit seems impossible even our own, but the idea is that given a few hundred more billions things would work out alright. Yet we have exported more than any need is for folks to throw more good money after it had a Utopia in just around the corner. Beats the bound outta us.

Yes sir, anybody who claims to understand

and today's Situation has got to be either a new corner or a damn plow, or both.

Ever thine,
The Editor.

P.S.: Uncle Dunk says celebrating Agriculture Week in the country has got to be a swell idea, but you got to have it the Texas Ag Commis-sioner Jim Hightower. He staged a snailin' contest down in Austin to focus attention on how hard things are down on the farm and someone pointed out that if all of agriculture was reduced to the status of a snail, it would be as filthy as the dirty part of it, there would be no snail in it. I'm not sure about reports, as long as he is doin' this kind of stuph he ain't messin' with agriculture, and that gives us a better chance to get things straightened out. Our spies in Austin tell us that Jim ain't nothin' but the Texas Ag Department, hein' too busy with the snailin' to be a farmer, for one, but that the employees are thankful to be very least, — Thussall, Brother!

New Orleans — The Circle Bar Ranch, Marjolin Classic Brangus Sale will be held Saturday, April 14, 1983. Lunch will be at noon with the sale following at the Fairgrounds Race track in New Orleans, Louisiana.

Second Shorthorn Extravaganza Set for April 2

Tolar, TX — The 2nd Annual Shorthorn Extravaganza will be held Saturday, April 2, 1983. Sale time is 8:00 p.m. at the J. W. Holmes Ranch at Tolar, Texas.

Selling will be 35 head of Shorthorn steers and 6 to 8 head of Shorthorn heifers. The sale will feature the largest and best selection of Texas age Shorthorn steers and heifers ever assembled. All heifers are nominated in the Garretson's Heifers Futurity Show.

Consignors are Gary Buckholtz, Bill Masterson, Bud Johnson, Dan Heath, Alden Farms, Cates and Sons and Jim Cato. Shorthorn steer verification will be guaranteed.

For information contact J. W. Holmes, Tolar, Texas, 817/836-4649, Gary Buckholtz, Duncannon, Texas, 214/298-6305, or Bill Masterson, Guthrie, Texas, 806/596-4460.

\$140,000 Steer Is Disqualified, Rule Was Violated

(CONT. FROM PAGE 1A)

As a result of this disqualification, the Houston Livestock Show and Rodeo's Executive Committee has voided the sale transaction and has notified the buyer, world renowned oilwell firefighter Paul N. "Red" Adair, that he has no monetary responsibility regarding the sale.

Each exhibitor signs a statement, before entry, that he or she both understands and will abide by the rules and regulations of the Houston Livestock Show and Rodeo. These rules were published in the Houston Livestock Show Premium List and have remained unchanged for several years.

Smith admitted to Show officials that, for about two months of this required ownership period, his steer had been away from his home and under the care of an out-of-state veterinarian and fitter.

Smith was disqualified because he violated Show rules requiring that each junior show exhibitor must personally feed and care for his or her animal throughout a required ownership period. This period for market steers began on July 1, 1982, and continued through the dates of the 1983 Houston Livestock Show.

Panhandle Feedlot Sales New Record

Amarillo, Mar. 18 (F.S.) — Slaughter steers and heifers closed 1.00 higher. This week's volume is the largest for any week on record in the Panhandle feedlot area, with the previous record being 90,700 set in early February, 1982. Area packers purchased practically all of movement and very few cattle purchased outside of this area by mid-week for slaughter in this area. Feedlots in the area are very scarce. Some feedlots do have moderate numbers of long fed steers weighing 975-1025 lbs. and heifers under 900 lbs. Some snow an rain hit the northern half

of the area Wednesday but the snow was gone by Thursday afternoon and should not cause very many problems. The average live weight of most cattle slaughtered in area packing plants last week was 1051 lbs. compared to 1055 lbs. the previous week and 1065 lbs. a year ago. Steers 73,100; Good and mostly choice 2-3, 70-85% choice, 1000-1150 lbs. 64.00-65.50, late bulk 65.00-65.50. Mixed good and choice 2-3, 825-1175 lbs. 63.00-65.00, late sales 64.00-65.00. Fow pens good and choice 2-3, 1050-1175 lb. Holsteins 57.00-58.00, some at 95.00 in the hoof. Heifers 19,900; Good and mostly choice 2-3, 900-1025 lbs. 61.50-63.00; late 62.50-63.00. Mixed good and choice 2-3, 850-1050 lbs. 60.00-62.50; late 61.00-62.50. Good and choice 2-4, 950-1100 lb. heiferettes 57.50-60.00.

There are about 3,000 low islands and rocky islets in the Bahamas.

Brenham Monday

Brenham, Texas, Mar. 21 (F.S.) — Receipts 480. Feeder steers and steer calves steady to strong. Feeder heifers and heifer calves fully steady. Slaughter bulls 1.00-2.00 higher. Winners Selected in 'Champions of Champions' Simmental Show

Fifty of the best Simmental cattle in the country—representing 14 states—competed for top honors in the "Champions of Champions" Simmental Show at the Houston Livestock Show.

Entries were made up of qualifying animals according to the Texas Simmental Association rules. Points accumulated throughout the year for grand champion, reserve champion, first, second, third and fourth place awards at major shows were added up to determine the top 50 Simmental in the breed. Owners of these animals were issued invitations to compete for the top placings in the "Champions of Champions" Show.

Judging of the Simmental entries was done by a committee of three judges. Each class placing was determined by two judges and the third judge served as a referee in case the placings conflicted. The two official judges and the referee were rotated for each class. The committee of judges included Terry Johnson of McArthur, OK, Jim Williams of the V B Ranch at Hungerford, TX, and Dr. Bob Long of Texas Tech University, Lubbock.

The committee's choice for the grand champion female was "Bar F Miss Y0 28," owned by Nikki and Shelley Overpeck of Clinton, IN. The three-year-old female was sired by "Bar Double D Master." She repeated her win from last year when she was awarded the grand championship at Houston as a two-year-old. The year (CONT. ON PAGE 23A)

What's behind the Simmental explosion? American ingenuity develops a better breed.

You'll want to retain the Brahman strengths of adaptability, calving ease, longevity, heat and disease resistance.

Add the Simmental traits of fertility, milking ability, early sexual maturity, breeding aggressiveness, growth, muscle, feedlot efficiency and desirable carcass quality.

The result — Simbrah. And that's why they're in demand.

Simbrah: The best of two great breeds.

Increase Nuclei Simmental Membership

Bozeman, MT - Membership in the American Simmental Association increased by an impressive twenty percent during 1982, as reflected by year-end reports recently released by ASA Executive Vice-President Earl B. Peterson.

"Growth is occurring in the youth membership as well as the adult category," Peterson said. "We have been expanding our youth activities

and aspects and the economics of raising beef cattle."

New memberships have nearly doubled in the past four years, growing to 17,802 by the end of 1982. No annual dues are assessed, and breeders pay a one-time assessment of \$150.00 which entitles them to lifetime membership in the Association.

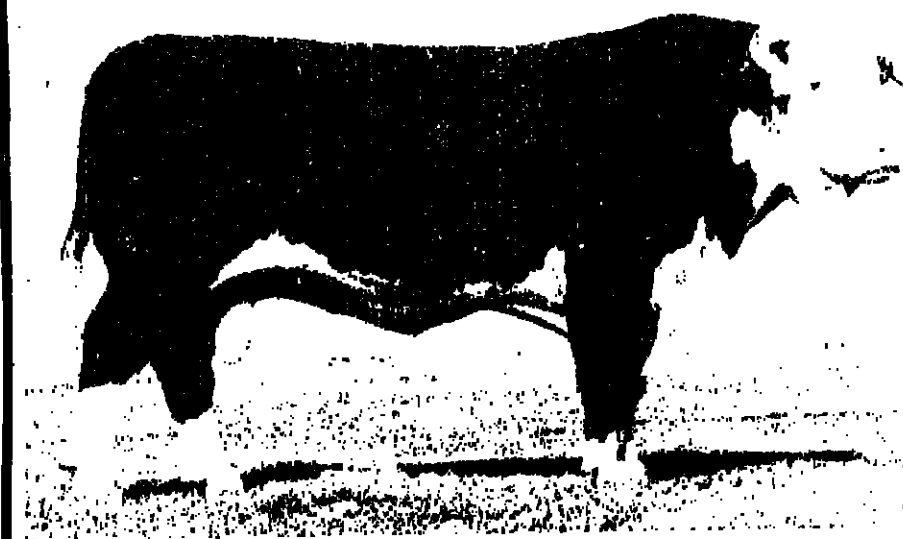

"We experienced another big increase in performance calculations as well," Peterson explained. "A total of 183,128 performance calculations were processed, a jump of more than ten per-

centage over the previous year. Those calculations free of charge if the animal involved is the progeny of an ASA registered parent."

Founded in 1958, the American Simmental Association currently ranks fourth among all U.S. beef breed associations in terms of annual registrations. During the past year, 70,764 new animals were registered in the Simmental Herdbook.

RRC Chairman Wallace Outlines Key Issues For Oil Industry

(CONT. FROM PAGE 1A) gathered for the Commission's annual "state-of-the-industry" hearing here, Wallace said, "Like it or not, our natural gas prices are being set by the Congress and our oil prices are being set by Saudi Arabia. I resent it and

believe the American people resent it." According to Wallace, the oil and gas industry and Congress stand face to face with "one of the most serious challenges either has ever encountered." He said America's energy needs are in jeopardy not because of scarce oil and gas resources, but because of "petty partisanship and regional bickering."

"The American consumer is angry," he said, "the public does not know which set a scare tactics to believe. This nation's energy needs should not be a partisan issue."

The Railroad Commission's senior member blamed the Natural Gas Policy Act of 1978 for the disruption in the country's natural gas markets, pointing out that it is keeping the price of gas high at a time when the law of supply and demand says the price should fall.

"That law was conceived in an atmosphere of panic after a temporary supply shortage of natural gas," Wallace said. "It effectively split the country into regional sections and created sharp divisions among gas producers, gas pipelines, gas distributors,

and gas consumers. The law actually encourages the production of the most expensive types of gas."

Describing the gas market in America as a "mess," Wallace told the industry representatives that the current surplus of natural gas is temporary, the result of economic recession, reduced demand and falling prices of competitive fuels, not new supplies.

He warned that Congress is again considering solutions in a "panic" and that although it's too early to predict, "it appears we are about to replace one set of regulations with another."

Wallace said, "There is no more equitable remedy or resolution to this sorry natural gas problem than the removal of these various price controls as rapidly as possible. There will be some pain involved, but extricating oneself from a thorny briar patch is sometimes painful."

Moving to the issue of foreign oil dependence, Wallace said the only way for the country to free itself is to increase exploration and production at home. "Like it or not," he said, "you can't build an economy, provide jobs for the unemployed and food for the hungry,

and assure the security of America with undrilled oil and gas wells here at home."

The Commission chairman called on the oil company representatives to voluntarily limit their foreign oil imports and expand their exploration and production base in America, saying, "It is long past time for us to free ourselves from this dependence — free ourselves economically and free ourselves strategically."

What the nation desperately needs, but is unlikely to get in the current "spider web" of regulation, according to Wallace, is a national fuels policy which includes complete and total decontrol of natural gas.

"The existing bad law must be repealed in its entirety," he said, "so that natural gas may be free to search out its true value in the market place. In my opinion, deregulation would result in lower prices for the consumer."

Existing gas contracts might have to be renegotiated, Wallace said, but "completely unshackled from regulatory pricing schemes, I believe producers and pipeline will find it to their own advantage to renegotiate."

He said he has serious reservations about any federal intervention into those contracts.

Wallace called upon the industry representatives to stop quarreling among themselves and upon Congress to "stop avoiding the difficult decision that must be made if we are to assure ourselves and our children of energy security for the future."

PINZGAUER NEWS

Pinzgauer/Pinzbrah Field Day Will be May 14 in Athens, TX

Bob Sullivan, President of the Southwest Pinzgauer Association and Dan Scott, spokesman for East Texas Pinzgauer Breeders jointly announced the Southwest Pinzgauer Association and East Texas Pinzgauer Breeders would co-sponsor a Pinzgauer/Pinzbrah Field Day to be held at the Henderson County Fairgrounds at Athens, Texas on May 14, 1983. Sullivan stated that the S.W.P.A. annual membership and Board of Directors Meeting would also be held at that time.

The Field Day is planned to follow the format of the highly successful venture held in Canton, Texas in 1982. Already confirmed for the program are outstanding beef cattle specialists and agricultural economic experts from area experiment stations and universities. Regional and national Pinzgauer

Kount WT2L, owned by HI Point Ranch, New Boston, TX, was the reserve champion bull, of the 1983 National Western Stock Show in Denver. The dam of the champion bull, Trapper, is HL 807K also owned by HI Point Ranch.

leaders will also outline history and progress of the Pinzgauer breed with emphasis for this exhibit being placed on the unique genetic potential of Pinzgauer cattle in crossbreeding programs.

The highlight of last year's program, a buffet luncheon which is provided by East Texas Pinzgauer breeders and their wives and provided for all visitors and guests at the Field Day, is again included in the program. Local arrangements are the responsibility of Marie Hooper, Tyler, Texas, Dan Scott, Murchison, Texas and Matt Free, Sunnyvale, Texas. Individuals interested in bringing exhibit cattle, or have suggestions for the program or require any ad-

Regional Pinzgauer Show at East Texas Fair, Tyler in 1983

In October of 1982, shortly after the East Texas Fair, Bob Sullivan, President, S.W.P.A., mailed a questionnaire to all breeders and exhibitors who participated in the 1982 S.W.P.A. Show. He received a response from a majority of the exhibitors and breeders and those were invariably strongly positive regarding the Show and Pinzgauer Exhibit.

The S.W.P.A. Executive Committee has tentatively arranged with the East Texas Fair to present the S.W.P.A. Regional Show and Exhibit in 1983 with a format similar to that which was felt to be so successful in 1982. The Show Committee will be appointed at the May Membership and Board of Directors Meeting to be held in Athens, Texas. Sullivan asked that all prospective exhibitors begin to select and fit their animals now for this first major show of the 1983-84 winter circuit.

ditional information regarding the Field Day are urged to contact these Committee members.

As an added feature of this Field Day the Southwest Association is asking the APA to provide materials and expertise for conducting a cattle registration workshop and a field trip is planned at the end of the Field Day to Scott Pinzgauer Ranch to visit Pinzgauer and Pinzbrah breeding operations and to examine various forage programs on the ranch.

S.W.P.A. members invite all Pinzgauer breeders and potential Pinzgauer people to mark their calendars for May 14th and make firm plans to attend this fun and educational program.

Final Plans Set For All Breeds Bull Sale

Sealy — Final plans have been made for the 1st Annual Gulf Coast All Breeds Bull Sale to be held at Port City Stockyards in Sealy, Texas on March 26, 1983. Over forty breeders of purebred cattle have consigned 176 bulls representing 17 breeds.

These bulls will be arriving at Port City Stockyards on Thursday, March 24th in the afternoon. On Friday, March 25th, at 1:00 P.M. the bulls will be presented to a team of three veterinarians who will x-ray the bulls for structural soundness and condition. The bulls will then be weighed and a weight per day of age figured on each bull. They will then proceed to the sale arena where they will be graded by six-

teen cattlemen. The bulls must score at least 85 points from a possible 100 in order to sell on Saturday. The public is welcome to attend the grading on Friday.

Sales manager, John Joyce, states, "an all breeds bull sale such as this with such a right method of selection will insure buyers of buying only bulls of the highest quality."

All bulls consigned to this sale will be fertility tested and guaranteed by the individual consignors. The bulls will also have a Tuberculosis and brucellosis test and will be ready for shipment to any destination.

Sale headquarters is the Countryside Motel in Sealy, Texas located on IH 10 and Highway 36 (713/885-7407). For further information and catalogs, contact John Joyce, Rt. 2, Box 232, Wharton, Texas (713/857-2212 or 343-3035).

Mortgage Retirement Account Legislation Proposed by Tower

WASHINGTON — U.S. Senator John Tower (R-Texas) announced today he will introduce legislation to promote increased savings and home ownership.
 "The Mortgage Retirement Account (MRA) Act of 1983 would allow individuals to establish a tax-deferred account to save for a down-payment on a home. Those who own homes could establish an MRA to pre-pay principle on their mortgages. Regulations and limitations on the MRA would be virtually identical to those now covering IRAs," Tower explained. Tower is the new chairman of the Senate Subcommittee on Housing and Urban Affairs.
 "This legislation would simultaneously encourage savings and stimulate the vital housing industry," Tower said. "Young people who may not wish to save for their retirement would have a significant incentive to combine the tax advantages of an IRA with the opportunity to set aside money for a home. Renters will have a way, under the existing IRA mechanism, to own a home of their own while providing equity for financial security when they retire."
 "Current and future homeowners who choose to pay off their mortgages at a faster-than-scheduled rate will be 'saving' as well, since they will be reducing their debt and therefore increasing the

amount of money available to other borrowers," the senior Texas senator said.
 "This additional savings generated by MRAs would benefit not only individuals providing for their futures, but allow would stimulate the national economy," he added.
 "For financial institutions, early payment of mortgages would mean that some of their assets would be freed earlier than scheduled. That, in turn, would give them greater ability to respond to fluctuations in interest rates," Tower said.
 "Additionally, the housing industry is such a vital part of our economy that recovery in this sector is vital to the overall prosperity of the nation. This

WHEN STRESS GETS THEM DOWN...

On the spot... on the farm... ration analysis with **ralco** COMPU-BLEND

 Ralco-Mix Products, Inc.

with Ralco Power-Pak

You don't have to be told what stress can do to your stock... poor nutrition, shrinkage, slow recovery, deathloss. Ralco-Mix Power-Pak is especially formulated to fight the debilitating results of stress. High levels of vitamins, electrolytes, amino acids, Suppl-Mix and probiotics promote appetite, improve total digestion and stimulate an active rumen population.
 Power-Pak can be used for animals at any age, including calves suffering from stress-induced diarrhea and dehydration. In severe stress cases, Power-Pak can be administered as a drench. Mixed with whatever you feed, Ralco-Mix Power-Pak is a proven way to stop stress.
